LEARN THE ESSENTIAL TOOLS AND TECHNIQUES OF PROJECT MANAGEMENT

The purpose of this class is to prepare students for the rigorous Project Management Professional (PMP)® Exam sponsored by the project Management Institute. The students learn the five process groups and the ten knowledge areas. In addition, the students are provided with practice exams that mirror the real test-taking environment.

Student Feedback:

Jimmie's class is a great way to prepare for the PMP exam! His course gives you an applicable understanding of all the PMP topics and stresses what is important to study for the test. He will motivate you to get it done! He really cares about his students' success and goes the extra mile by providing time and detailed advice about completing your application, scheduling your exam, and taking the exam itself at the test center. His course slides, web tools, and practice test are all great tools to use to prepare for the exam!

For those of you still "on the fence" on which PMP® Certification Prep course to enroll in, I highly recommend Dr. Flores' PMP® Prep course. I found it to be quick, precise, and well-worth the time and expense. It convinced me to take the formal exam for my PMP® Certification. The course is well structured and timed for maximum results and less fluff, well suited for my way of studying.
